### MANAGER'S MESSAGE

This is the Seventh Annual Sale for Cummings, Elliott and Ralstin. They have joined with E. W. Davidson & Sons, Americus, and Walter Hunt, Arkansas City, to make this sale large enough to sell Shorthorn cattle in a large group to supply the buyers' needs. None of these men are newcomers in the Shorthorn business. Many years of experienced good breeding and management will be seen in this sale. The cattle in this sale will be in good breeding condition. The bulls are of serviceable age; many past two years old. A number of the cows have calves by their side that would make excellent club projects; also, bred and open heifers. This is one of the best opportunities to buy Shorthorn breeding cattle you will find anywhere. If you are in doubt about the performance of these herds, why not check with men who have bought Shorthorn cattle from any of these represented firms. With all the top herd sire material available in this sale, would be reason enough to look over this outstanding offering.

Newton, Kansas, is located on U. S. Highways 81 and 50. The Newton Cow Palace is a modern, up-to-date sale barn, with a fine restaurant.

If you want to see some of the best Shorthorns of the breed, be in Newton, Kansas, Saturday, November 18th. You'll be glad you did.

**MILTON H. NAGELY, Sale Manager**

**STANDARD GUARANTEE**  
**(Recommended by American Shorthorn Association)**

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

Ambassador has been kept as herd bull insurance until now and we have 18 females in calf to him, including some of our best cows. He ran out with the cows this summer and will not be in high fit. We consider him a strong, sound bull. It usually entails a lot of travel and expense to find a bull with this quality and pedigree.
